

# Before **WebChartMD** my business drove me. Now, I drive my business.

**WebChartMD** is the perfect solution for managing every aspect of your transcription workflow.

Here's how it works: you transcribe in your own Microsoft Word®, and upload completed documents to online accounts we provide for your clients.

Physicians and staff access their online accounts from virtually any internet accessible computer to edit, print, fax, search, e-sign and more.

**WebChartMD** also gives you total online management of your accounts and transcriptionists. Now you can route audio files and documents, QA, run productivity reports and more—all with a few mouse clicks.
